THE INSTITUTIONALISATION OF MATTONE INTERNAZIONALE PROJECT

PRO.M.I.S.

Programma Mattone Internazionale Salute

THE NEW PROGRAMME IN SUPPORT OF THE ITALIAN REGIONAL HEALTHCARE SYSTEMS

FOR THEIR PARTICIPATION TO FUNDING PROGRAMMES AND TO EUROPEAN NETWORK IN THE HEALTHCARE AND SOCIAL FIELDS

RESULTS OF

THE PROJECT MATTONE INTERNAZIONALE

✓ It has been at the core of a system of partnerships and networks

✓ It promoted international research activities in the public health field

✓ It responded to the way of working at the basis of the EU planning

✓ It fostered the capacity building process

✓ It promoted the experimentation and implementation of new organizational models

✓ It involved the different actors of the National Healthcare System, while increasing their role within the institutional levels

✓ It allowed the dissemination of several methodologies concerning projects, the development of proposals for supra-regional interest and the dissemination of results

✓ It represented an innovative governance method for supra-regional interest, aimed at accessing the European direct and indirect funds

The impact analysis of the whole activities showed the positive influence on the internationalisation of the National Healthcare System (SSN) policies. It also highlighted that their consolidation was necessary, notably through an institutionalisation process, within a permanent structure

PRO.M.I.S. new model

The new Mattone Internazionale model will link Regions and Autonomous Provinces in connection with central and national institutions

PRIORITIES AND PROGRAMMING ANALYSIS

Benchmarking of national, regional and local priorities
Drafting of the operational multiannual programme for the internationalization and the executive annual programme
